

Hydrometers, continued Safety Blue API/ASTM

The majority of Zeal hydrometers are now available as Thermohydrometers (hydrometers with an integral thermometer). This avoids the necessity of purchasing a separate thermometer to determine the temperature of the medium under test to ensure the correct adjustment is made to the hydrometer reading should it differ from the hydrometer calibrated (adjusted) temperature. Thermohydrometers are supplied with a unique non-toxic 'Safety Blue' filling. Blue Spirit filled versions are also available. Listed below is a selection of API/ASTM Thermohydrometers.

➤ **Safety Blue®** Thermohydrometers are completely mercury free, they have a unique non-toxic bio-degradable blue liquid filling.

• **PLEASE CONTACT SALES DEPARTMENT FOR ORDERING INFORMATION**

**API/ASTM SAFETY BLUE®
THERMOHYDROMETERS**
Maximum Length 380mm.
Divisions 0.1°. Tolerance 0.1°
Calibrated @ 60°F.
Thermometer 0 - 150°F:2°F Safety Blue
